

BIO RELEASE

Adria is emerging as one of the most exciting names in Brazilian house and indie dance. Her sets are known for sharp selection, high energy, and a real connection with the crowd.

With a unique acid streak, she took "High" and "Venus", released on Monaberry and Red Room, into Beatport's Indie Dance Top 15, and what comes next is being played exclusively in her latest sets.

That signature has taken her to respected clubs and festivals such as Universo Paralello, Piknic Électronik, BOMA, D-Edge, Green Valley, Surreal Park and Terraza, alongside tours through Argentina, Chile, Ecuador and Mexico.

Adria also runs the collective G/LRS, bringing music and fashion together through all-female line-ups, and collabs with brands like Ripndip and Glowshine. It's where another side of her meets the dancefloor.

With a magnetic presence and an authentic identity, Adria is carving out her place in electronic music, taking her acid sound to bigger stages and broader audiences.
